

ICT FOR A GLOBAL SUSTAINABLE FUTURE

How ICT can durably contribute to the wellbeing of all citizens around the world

International Conference
European Commission – Brussels
January 22 – 23, 2009

Biography

Session 3: Open consultation
Session chair: Roland Burger
Day II - January 23, 2009

Dr. Jun Li is the chief executive officer of CCID Consulting, a HK listed consulting company based in Beijing, and he's also the deputy secretary-general of China Federation of Informatization Promotion, and deputy secretary-general of China Semiconductor Industry Association. Graduated from Wuhan University, Dr. Li Jun has over 10 years of consulting experiences in government and enterprise IT application management, planning and implementation. He has presided over many projects on the planning, design, development and operation maintenance of regional and urban management information systems, as well as for some large-sized State-owned enterprises administrated by the central government.
